LONE BANDIT HOLDS UP TRAIN

\$5,000,000 FORTUNE, CENTURY OLD, FOR HEIRS IN HAYWARD

MINE EXPERT NOW ABROAD TO CLAIM ESTATE

Property Consists of Manor and Thriving English Town.

HARRY HOLDEN MUST PROVE CLAIM TO MONEY

Matter Is Now in Chancery, But Friends Expect No Difficulty.

Harry Holden, a miner and a mining expert of this city, and Rev. Conway B. Rogers, pastor of the Presbyterian Church in Hayward, are in England in an attempt to obtain a distribution of an estate, the value of which is estimated at one million pounds sterling, or in other words, \$5,000,000.

Today a cablegram was received from the attorneys to the effect that they had arrived on the other side of the water and that both were in good health. Their arrival will be followed by an appeal to the court of chancery for the distribution of the estate of William Houghton, who, more than a century ago, died, leaving an estate which has since become of almost incalculable value.

ESTATE INCLUDES TOWN.
The estate is known as Thornthorpe. It includes a manor and the town of Thornthorpe, which lies between Chester and Etrickhead. It is five miles from Oxton, fifteen miles from Chester and not far removed from the city of Liverpool. There are in the place, among other things, a large stone church, several hotels, schoolhouses and a number of homes of happy and contented people.

A few weeks ago Rev. Conway B. Rogers left Hayward to attend a meeting of clergymen of his religious belief, which was to be held in Atlantic City, N. J. But, at the same time, he had another purpose of going East, and that was of taking a run up against the court of chancery of England to secure for the heirs of the late William Houghton the property which, for the greater part of a century, has lain among those estates which, in the phraseology of the English courts, are designated "dominant."

AIDING A FRIEND.
Rev. Mr. Rogers is not himself on his own in the matter. He is simply interested in the matter because he desires to help a friend whom he believes to be the rightful heir, and in the latter he has a connection with W. R. Thomas of this city, furnished a substantial amount of money for the purpose of defraying the expenses of having the claim to the estate finally and satisfactorily settled.

The understanding which Harry Holden has of the matter that he is the oldest son of the family which is in line of succession to the property in question. At the same time, however, he has a brother and two sisters, but with these he has made an agreement that in the event of a claim being established to the satisfaction of the court he will divide the proceeds pro rata with them, with the exception of a small percentage, which is expected to go to Captain W. R. Thomas and Rev. Mr. Rogers, who have placed within his control money enough with which to make the present fight.

KNOWS THE METHODS.
Rev. Mr. Rogers is a native of Ireland and has a knowledge of the manner in which suits of this kind are conducted. Besides, he has a brother on the other side of the water who is a barrister and who has made quite a record in the matter of trying cases of this kind, and for that reason Holden has a better chance of success than is the lot of the usual claimant in matters of this kind.

The brother and sisters of Harry Holden, who are expected to share with him in the distribution of the estate, are Mrs. Catherine Bulkley of 64 Adelaide street, Liverpool; Mrs. Jennie Corbett, Queen's Arm Hotel, Oxton, Birkenhead; and Henry A. Holden of 8 Fiddock Close, Letchworth, Herts, England.
Mrs. Harry Holden is now making her home with the wife of Rev. Conway B. Rogers in Hayward, and all her friends, as also those of her hostess, are awaiting with the keenest interest the result of the trip of the husbands of both to the other side of the water.

ELDER SONS TESTIFY IN SPRECKELS HEARING

Testimony Concluded in Will Contest and Arguments Are Begun.

SAN FRANCISCO, June 10.—The hearing of the transfer of the late Claus A. Spreckels, the late sugar king, of the \$22,000,000 to his sons, John D. and Adolph Spreckels, was concluded today in the court of the county of San Francisco during the hearing of the contest waged by Rudolph Spreckels, Jr., to prevent their father's estate from being divided among his other sons.

FATHER'S STATEMENT.
At the opening of the session it was stipulated that the late capitalist had left 15 per cent of his entire fortune to the two brothers, John D. and Adolph Spreckels, and the balance to be divided among his other sons. It was then called to the stand and asked, by Attorney Peter Lunn, to state what he remembered of his father's statement.

TESTIMONY CONCLUDED.
That concluded the testimony and arguments were begun, continuing through the afternoon. The respondents, John D. and Adolph Spreckels, contend that the securities which have greatly increased in value since they were handed over to them, were a gift from their father, while counsel for Rudolph Spreckels, Jr., contend that the securities were a loan from their father, and that they are entitled to an equal share with their two brothers, and sister, Mrs. Emma Forrie.

ROOSEVELT IS ACCUSES WIFE WITH FRAUD IN GETTING DIVORCE

Noted American on Final Stage of Most Remarkable Trip Ever Made.

WILL LAND IN NEW YORK ON MORNING OF JUNE 18

Former President Is Accompanied by Wife, Son and Two Daughters.

SOUTHAMPTON, June 10.—Theodore Roosevelt is homeward bound today. Accompanied by Mrs. Roosevelt, Kermit, Ethel and Mrs. Nicholas Longworth, he sailed on the Hamburg-American line steamer Kaiserin Augusta Victoria shortly after noon.

The steamer is due at Quarantine, New York harbor, on the night of June 17, but the former president will not land in New York until the following morning.

FOREIGN SECRETARY'S GUEST.
In company with Sir Edward Grey, the foreign secretary, Roosevelt spent the last night of his visit in England at the Grosvenor hotel in London, in the vicinity of New Forest, Hampshire. He had been the guest of the foreign secretary since yesterday morning and this morning, the two motored to Southampton.

Here Roosevelt was joined by the others of his family, who had remained in London, coming down on the train this morning.

REMARKABLE TRIP.
When the Kaiserin Augusta Victoria turned her prow westward this afternoon Roosevelt found himself on the final lap of what in many respects has been the most remarkable trip ever accomplished by a private citizen. At the head of the Smithsonian African expedition, the former chief executive of the United States sailed on the steamer Hamburg from New York, March 22, 1909.

Arriving at Naples, he transferred to the steamer Adriatic and continued his journey, stopping at Messina where he met King Victor Emmanuel of Italy. The royal visit at Messina was made on Sunday, April 21, and soon afterward the hunting and educational expedition was begun and resulted in a great collection of African trophies.

EMERGES FROM JUNGLE.
March 14, Roosevelt emerged from the jungle, arriving at Khartoum, where he met Mrs. Roosevelt and their daughter Ethel. The expedition had been disbanded late in the preceding month. Throughout his African journey Roosevelt was accompanied by his son Kermit, who went along as the official photographer of the party, but turned out to be a splendid shot.

Following the hunt, Roosevelt was occupied with a series of speeches that have excited lively interest throughout the world. Also at this time was begun a program of entertainment in his honor such as had never been arranged for one who had retired to private life.

PORTEOUS INCIDENTS.
At Cairo he approved of the British rule and talked plainly to the nationalists. Then followed the exchanges with the Vatican, which resulted in his abandonment of the proposed meeting with the Pope. At Paris he delivered an address at the Sorbonne. At Christening he addressed the Nobel Prize Committee on the subject of international peace, marked by the death of King Edward.

Unusual honors had been planned for him. As it was, he went to London as special American Ambassador to the Royal funeral.

SPEECH CAUSES COMMENT.
In spite of the excitement of his program at the British capital it was at Cairo that he made the speech that attracted more attention, or at least more discussion, than any of the other of his addresses abroad.

Five years ago he touched upon British rule in Egypt, and mildly criticized what he conceived a tendency to leniency toward the present political conditions of the African dependency.

GREETED BY OFFICIALS.
Today Roosevelt said he had been greeted by his trip in the country. He had been thoroughly worn out by his exertions since his arrival here. After joining his family, Roosevelt proceeded to the headquarters of the mayor and the sheriff of Southampton. To the mayor the former president said:

"I would like to express through you, Mr. Mayor, my thanks to the people of this country for the way in which I have been received and to say what pleased me most. I shall always retain of the last portion of my sojourn in England, and I am glad to be back in the United States."

Madame Barry Charged With Obtaining Divorce by Deceiving Court.

LEAVES SON WITH HER FATHER, W. H. RUSSELL

Husband Declares He Will Have Case Reopened and Re-tried.

Attributing to his wife a fondness for intrigue, which led her to keep secret from him the fact that they had been divorced until three years after the divorce, which gave into her care the custody of their only child, had been granted, James Fitzpatrick, announces his determination of bringing a counter suit against the beautiful Madame Margaret Barry, prominent society woman of this city, electionist and former college president.

Declaring that he has not until lately suspected what he calls his wife's dual existence, Fitzpatrick asserts his determination of regaining the custody of his son, who is now in the custody of his father-in-law, W. H. Russell, master mechanic of the Southern Pacific Company, who lives in Birmingham. Reported visits to the home of his wife's father have availed him, naught according to the divorced husband, and he has not only been refused permission to see the little one, but has no claims been

worried from the Russell residence at the point of a gun.

The allegations of the husband are denied in toto by Madame Barry, who says she saw this morning in the home of her father, W. H. Russell, in E. Church street, that she was fully cognizant of the suit for divorce and allowed the decree to be granted without contest. She charges Fitzpatrick did not contribute to her support.

SAYS WIFE HAS AFFINITY.
His charges against his wife, Fitzpatrick names Charles A. Carver of Chicago, the famous Yale athlete and former associate of Wheat King Fitch, who, he declares, maintained a most intimate friendship with his wife, accompanying her to various California resorts and passing on one occasion as her brother.

In explanation of his allegations that his wife did not inform him of their divorce until three years after the divorce was granted, the operative man says that in 1906 he received divorce summons issued by the Oakland courts, bidding him show cause why his wife should not be granted separation and the custody of their child. He wrote her a letter, he claims, and shortly after she promised to patch up the difficulty and withdraw the suit. This he believed to have been done, and he went on with his life. A few weeks later, he showed on one of his conjugal attentions which he had been accustomed to grant her as his wife, little dreaming that there were no longer lawfully wed.

THEN HE BOUGHT A GUN.
In fact, the deception might have gone on indefinitely, according to Fitzpatrick, had he not learned of the existence of Carver to his wife. Believing himself the outraged husband, he bought a gun, intending to bring the pair to their knees in plea for forgiveness, when arriving at Buena Vista, enroute with a operative company, he was astounded to find the name C. A. Carver and wife registered at a hotel at that place.

A scene followed, in which Mrs. Fitzpatrick claimed all the trunks with a sensational statement that she was no longer his wife that she had been divorced from him three years ago and if he crossed the California

Woman Is Murdered And Placed in Trunk

Body Drawn from the Waters of Lake and Detectives on the Trail of Slayer.

COMO, Italy, June 10.—Fishermen today discovered submerged in a lake near the village of Moltrasio a trunk which was found to contain the body of a woman believed by the police to be an American. The woman's head indicated that she had been murdered. The body was wrapped in a piece of cloth which bore the initials "C. L." The trunk also contained letters written in English and the photograph of a young woman evidently the victim. It is recalled that a young couple recently occupied a villa on the shore of the lake. Three days ago the two disappeared. The woman spoke English. Her companion attempted French, but obviously it was not his native tongue.

POSSES TRAIL BOLD THIEF ACROSS DESERT

Diamond Ring and \$217 Is the Reward for Cold-blooded Daring.

LOCKS CREW IN PULLMAN AND ROBS TOURISTS

Railroad Refunds the Money Stolen and Offers \$2500 Reward for Capture.

EL PASO, Texas, June 10.—Two hundred and seventeen dollars in cash, a diamond ring and several other trinkets was all that rewarded the cold-blooded daring of a lone robber who early this morning held up a north-bound passenger train on the El Paso & Southwestern Railroad shortly after midnight near Robsart, New Mexico.

The railroad today refunded to the robbed passengers all the money taken from them, and at the same time offered a reward of \$2500 for the capture of the robber.

POSSE ON TRAIL.
A posse left Carlsbad, N. M., early this morning on his trail, which led across the desert toward the mountains.

The man is described as of dark complexion, slight build, wearing dark trousers, black shirt and a slouch hat.

The robber, who apparently boarded the train at Carlsbad, forced the train crew into the Pullman sleeper, looked them in, then proceeded to rob the passengers in the tourist car. Superintendent Hawley was in his private car at the rear of the train, but he was not disturbed by the robber, who, after cleaning out the tourist car, jumped off the train, shot out the tail lights and disappeared in the darkness.

OLD HAND AT GAME.
That the man is an old hand at the game, who will put up a hard battle before allowing himself to be taken is assumed from the manner in which he carried off the daring hold-up single-handed. Members of the posse are prepared to shoot on sight.

One by one the half-dressed passengers were "checked" by the robber's gun as they clambered from their berths. Taking his time and exhibiting business the bandit carefully took a inventory of what each bore in his upturned hands. The job was thorough, but a passenger escaped and was being a detective to keep anything of value.

Fitzpatrick Wrote Wife He Had Found Affinity

The following letter was received by Mrs. Barry June 24, 1908, from Spokane, Wash., from Mr. Fitzpatrick. It reads:

"My Dear May: Tomorrow is Russell's birthday. How I should like to see the 'old maid.' I wrote some time ago asking for his address that I might send him something. If I get the information in Butte, as requested, I will be pleased. Well, my dear girl, you have said to me a number of times that you wished that we were divorced. You also said that you would like to see me happy in some god woman's love. I am now going to tell you all. I have found her. She is a dear and I know you would just love her to death. In height she is 5 feet 10 inches, weight about 140, or 135, built not unlike yourself, only a trifle lighter in complexion. Name: Elstia Gwendolyn Dudley-Vane. Is a niece of the Earl of Dudley, owns rubber interests in old Mexico, and is interested in the marble industry in Parra, Italy. Is thirty years of age, educated, and a dear. I am enclosing a post stamp size likeness. She is an accomplished horsewoman and a royal good fellow. So there now, that isn't so bad for me. You know I couldn't sink to corn beef after having associated for five years with you, my dear."

"She seems to be very devoted to me. I am very fond of her. Now, my dear girl, you and I are parted for all time to come, and I know that you would welcome a decree of divorce. I am free to confess that I want it."

"Gwen understands the situation perfectly. In fact she too is applying for a divorce from Baron Von Georinger, and as soon as the two cases can be settled, well, we will be married, and then to Australia."

"I hope, my dear, that you are happy, and hope that some good man may succeed in winning the love that I cherished in my way. Above all things—but enough of this. With best wishes and kindest regards, I am as ever, JIM."

MIRTH AND REVELRY REIGN IN SAN LEANDRO

Great Cherry Festival Opens This Evening With Confetti Battle and Dancing in Streets

SAN LEANDRO, June 10.—Thousands of visitors have been pouring into San Leandro today. The city of cherries is decked out in gala array and all is in readiness for the formal opening tonight of one of the largest and most elaborate festivals ever given in this section of the county.

Every approach to the city is decorated with flags and banners and the streets of San Leandro are strung with electric lights in preparation for the illumination that will be the first feature of the carnival tonight.

Following the illumination of the city, there will be dancing in the streets and sidewalks and tons of confetti will be sold for the battle royal that will take place when the gay revelers commence proceedings at 8 o'clock.

Delegations from Hayward, Niles, Livermore, Pleasanton and other cities of the section have already arrived in San Leandro and are making preparations for the big parade that will be a real feature of the festival.

Preparations have been made this year for the accommodation of 100,000 people and every detail has been arranged for public eating places for the great crowds that have already filled the town.

Elaborate plans have been made at a number of the large restaurants for special programs for the entertainment of carnival guests and many are planning barbecues and other amusements for the occasion.

Queen Mabel and her court will be entertained at a barbecue and house party at the home of Frank L. Rawson tonight. Plans have been made for a large barbecue and musical program, which will be followed by a reception when the Queen will be introduced to the prominent visitors from all parts of the state, who have been especially invited to attend the carnival by the general committee in charge of the event.

The big feature of tonight's program will be the grand ball that will be given in the Masonic Temple, the magnificent new home of the Masons having been completed and dedicated some months ago.

The ball room will be crowded to the doors with carnival revelers and the Queen and her attendants will lead the grand march that will close the function.

Many concessions. Every vacant space in the center of town has been made use of for the many concessions that are on the grounds, the concessionists having completed all arrangements for the grand opening of their various amusements at 10 o'clock tomorrow morning.

The big Ferris wheel has been placed in the center of the town and some of the most attractive side-shows that it is possible to obtain have been procured by C. Q. Rideout, chairman of the committee in charge of the festival.

Queen Mabel has completed arrangements for her coronation Saturday morning at 10 o'clock when her reign will commence. The crowning of Queen Mabel is to take place on Estadillo avenue between the large red and gold arch erected across the highway.

The queen's float, on which her throne will be placed, is modeled after royal courts of the old world and her attendants will be costumed in a far famous court scene in history.

Miss Mabel Rose has been chosen by Miss Furtado to be the queen of the festival. On behalf of the citizens, Mayor J. T. Gill will then hand over to her the key of the city.

WELFARE LEAGUE SEEKS MEMBERS

Wants 10,000 to Join Fight to Save Children of Alameda County.

With a desire to prevent crime among the youth of this city and promote the interests of boys and girls, the Child Welfare League of Alameda county, which was formed recently, has issued an appeal to the men and women of the county to join the organization.

The league's purpose is to make Alameda county the safest and best county in the state of California in which to rear the rising generation.

The appeal and work of the league has the endorsement of educational workers, and 100 women's organizations, representing a membership of 500 women, have already become affiliated with the league, which is headed by Miss Bessie Wood, one of the directors of the Oakland Club; Mrs. John N. Porter, secretary, and Mrs. John Mole, treasurer.

WANT 10,000 MEMBERS. The officers of the league are anxious of raising the membership to 10,000 associate members who will pay \$1 a year toward its maintenance.

As soon as the money is on hand the first worker will be employed. The playgrounds of this city will be under the supervision of able workers and legitimate forms of amusement will be encouraged by the league.

Efficient men and women must be found and paid to enforce these laws. For the present, according to the plans, they will be made deputy probation officers, and have under the law, the powers of police.

The league will seek to prevent the sale of tobacco, liquor and drugs to children, and will also have the curfew laws enforced, and they will endeavor to have the many arcades and nightclubs stripped of objectionable features.

30,000 Women Ready To Strike in Gotham. BOSTON, June 10.—A general strike of from 20,000 to 30,000 makers in New York city was authorized this afternoon by the Lady Garment Workers' International Union, which is in session in this city.

The convention voted to leave the date and arrangements for the strike in the hands of the special committee of which Albert Block of Chicago is chairman.

Insurgents Agree To Support House. WASHINGTON, June 10.—Insurgent senators practically reached an agreement today to support the House provision in the sundry civil service bill making an appropriation for the expenses of the tariff board.

WESTERN UNION TANGLED IN LAW. Indicted for Abetting Conducting of Bucket Shop.

WASHINGTON, June 8.—The Federal grand jury today returned an indictment against the Western Union Telegraph Company, charging it with forty-two violations of the bucket shop law of March 1, 1909.

The claim is made that the Western Union Company, by means of a telegraph wire and a ticker, aided and abetted the conduct of a bucket shop in the District of Columbia.

The forty-two counts of the indictment vary only in the date on which the alleged violations are said to have occurred.

An additional indictment charging the conduct of a bucket shop in the district was filed today against Wm. D. Price, Virgil P. Randolph, Henry M. Russell, Chas. T. Morris, E. Edward, William, James A. Anderson, J. B. Batmore, Md., Thomas F. Campbell of Philadelphia, Joseph F. Gattis of New York, Edward Everett Taylor and John P. Althoff of this city.

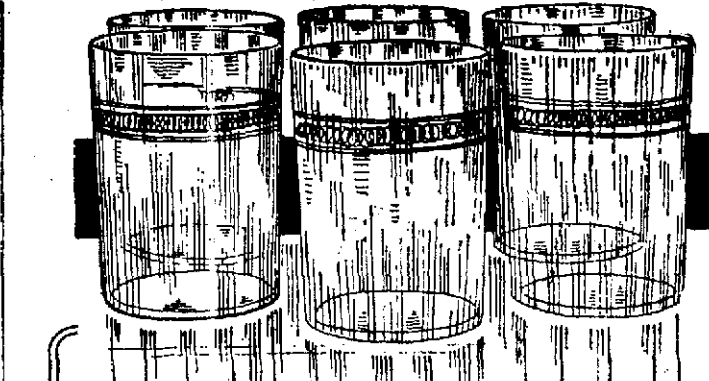

Want More Policemen In Annexed District. A petition for twenty more patrolmen to police the newly annexed district will be presented to the City Council at its regular meeting Monday night.

The petition was drawn up last night at a meeting of the Fruitvale Board of Trade. It was pointed out at the meeting last night that the annexed district covers as large an area as did Oakland before the annexation, and that additional police protection is daily demonstrated as necessary for Fruitvale, Alameda, Melrose, Fruitburg and Elmhurst.

The matter of greater vigilance on the part of the police department in prohibiting automobile speeding along East Fourteenth street was also discussed by the members of the board and it was decided to refer this complaint to the City Council.

English Compulsory In Chinese Schools

NEW YORK, June 10.—The Chinese government has officially decreed that English shall be the official language for scientific and technical education in this country, according to a dispatch which reached New York today.

The decree makes the study of English compulsory in all the provincial, scientific and technical high schools and provides that final examinations for degrees in these branches shall be through the medium of English.

This important action by the Chinese supervisors of education is said to be largely due to the influence of students who have been educated in America.

CONFERENCE OVER TYPE OF FENDER

Oakland and Berkeley Law Makers Hold Joint Session.

A conference over the concurrence of both cities in uniform fender ordinance was participated in last night by President Pendleton, Councilmen MacGregor, Strifvator, Stachler and Voss on the part of Oakland and Mayor Hodghead and Commissioners Christian Hoff, R. W. Berry, E. B. Norton and W. F. McClure of Berkeley.

The officials from the University city favor a projecting fender and are eager to adopt such an ordinance in order to head off the necessity for calling an election to submit such a measure to the voters, as has been petitioned for under the referendum clause of their charter.

E. W. Ehlers, on the part of the Traction Company, declared that his corporation favored the wheel guards.

The Berkeley representatives said they were desirous of deciding on a suitable amount acceptable to both cities so that there would be no conflict in the regulations which would require the electric cars to be stopped at the municipal boundary lines to change fenders.

No decision was reached, but a further conference is to be held on the subject between the lawmakers of both cities.

WELFARE LEAGUE SEEKS MEMBERS

Wants 10,000 to Join Fight to Save Children of Alameda County.

With a desire to prevent crime among the youth of this city and promote the interests of boys and girls, the Child Welfare League of Alameda county, which was formed recently, has issued an appeal to the men and women of the county to join the organization.

The league's purpose is to make Alameda county the safest and best county in the state of California in which to rear the rising generation.

The appeal and work of the league has the endorsement of educational workers, and 100 women's organizations, representing a membership of 500 women, have already become affiliated with the league, which is headed by Miss Bessie Wood, one of the directors of the Oakland Club; Mrs. John N. Porter, secretary, and Mrs. John Mole, treasurer.

WANT 10,000 MEMBERS. The officers of the league are anxious of raising the membership to 10,000 associate members who will pay \$1 a year toward its maintenance.

As soon as the money is on hand the first worker will be employed. The playgrounds of this city will be under the supervision of able workers and legitimate forms of amusement will be encouraged by the league.

Efficient men and women must be found and paid to enforce these laws. For the present, according to the plans, they will be made deputy probation officers, and have under the law, the powers of police.

The league will seek to prevent the sale of tobacco, liquor and drugs to children, and will also have the curfew laws enforced, and they will endeavor to have the many arcades and nightclubs stripped of objectionable features.

30,000 Women Ready To Strike in Gotham. BOSTON, June 10.—A general strike of from 20,000 to 30,000 makers in New York city was authorized this afternoon by the Lady Garment Workers' International Union, which is in session in this city.

The convention voted to leave the date and arrangements for the strike in the hands of the special committee of which Albert Block of Chicago is chairman.

Insurgents Agree To Support House. WASHINGTON, June 10.—Insurgent senators practically reached an agreement today to support the House provision in the sundry civil service bill making an appropriation for the expenses of the tariff board.

Speeches will be made in the Senate expressing preference for a tariff commission, but announcing acceptance of the House provision.

Leavitt Jury Fail To Reach Verdict. SEATTLE, June 10.—The jury in the manslaughter trial of Ralph J. Leavitt, a Los Angeles automobile dealer whose car killed Rafael Segal, a street sweeper in this city July 10, 1928, was unable to agree and was again locked up this morning.

WESTERN UNION TANGLED IN LAW. Indicted for Abetting Conducting of Bucket Shop.

WASHINGTON, June 8.—The Federal grand jury today returned an indictment against the Western Union Telegraph Company, charging it with forty-two violations of the bucket shop law of March 1, 1909.

The claim is made that the Western Union Company, by means of a telegraph wire and a ticker, aided and abetted the conduct of a bucket shop in the District of Columbia.

The forty-two counts of the indictment vary only in the date on which the alleged violations are said to have occurred.

An additional indictment charging the conduct of a bucket shop in the district was filed today against Wm. D. Price, Virgil P. Randolph, Henry M. Russell, Chas. T. Morris, E. Edward, William, James A. Anderson, J. B. Batmore, Md., Thomas F. Campbell of Philadelphia, Joseph F. Gattis of New York, Edward Everett Taylor and John P. Althoff of this city.

Want More Policemen In Annexed District. A petition for twenty more patrolmen to police the newly annexed district will be presented to the City Council at its regular meeting Monday night.

The petition was drawn up last night at a meeting of the Fruitvale Board of Trade. It was pointed out at the meeting last night that the annexed district covers as large an area as did Oakland before the annexation, and that additional police protection is daily demonstrated as necessary for Fruitvale, Alameda, Melrose, Fruitburg and Elmhurst.

The matter of greater vigilance on the part of the police department in prohibiting automobile speeding along East Fourteenth street was also discussed by the members of the board and it was decided to refer this complaint to the City Council.

Suspected Thief Thrown into Jail. The theft of several chickens from the rear of a barber shop at a Lieke avenue and Penniman street, has resulted in the arrest of William Vane, a resident of the neighborhood, who is being held in the city prison in default on suspicion of having been the thief.

VESEY, GOVERNOR. SIOUX FALLS, S. D. June 10.—Latest returns show he following for governor: Robert S. Vessey, Progressive, 21,971; George W. Egan, Independent, 20,131; B. A. Elrod, Stalwart, 12,709.

Rudolph Spreckels Defames San Francisco

Rudolph Spreckels evidently doesn't want San Francisco to get the Panama-Pacific Exposition. He has never forgiven the people of that city for overthrowing the oligarchy and spy system he had established. He denounces San Francisco and its citizenship every time he gets an opportunity to express himself in print, and persistently spreads abroad statements reflecting on the good name of the city and the vast majority of its inhabitants. Apparently he would like to see San Francisco defeated in the competition for the exposition, possibly, perhaps, because neither he nor his business and political partner, James D. Phelan, is to have an influential voice in the exposition management.

Just when the representatives of San Francisco are straining every nerve to gain the approval of Congress, Rudolph Spreckels gives out these statements in a New York paper:

"The conditions in San Francisco are worse than ever, and I believe the grafters will go so far that they will kill themselves. Their disregard of the rights of the public will cause a general revolt, and the grafters will be swept away."

The worst enemy of San Francisco could not say worse. Nor could such statements be uttered at a time when San Francisco is most likely to suffer from them. The advocates of New Orleans find in Spreckels an unexpected ally and in his slanders an unlooked-for arsenal of ammunition.

It was stated by the paper which printed the interview quoted from that Spreckels was on the eve of crossing the Atlantic to "study the graft situation in Europe." This must have been a mistake. He was not accompanied by the faithful Heney, the astute Burns nor the repentant Gallagher. Not even Fremont Older and Judge Fowler were there to see him off. It is not possible for him to make Dr. Edward Robeson Taylor, poet, lawyer, physician, economist and moralist, Mayor of an European city. He has no enemies in Europe to punish, and no judges and grand juries to do his bidding.

Plainly he is not going abroad to look for graft. The statement that he is on his travels to investigate, as an expert in that branch of finance, the graft situation in European countries was evidently thrown in to give dignity and importance to Spreckels' denunciation of San Francisco. It sounds very like William J. Burns.

The man who believes the water problem can be solved by a fight between corporations for the control of the field is blind to the lessons of experience and common sense. The man who believes the supply can be increased and the service extended and improved by cutting rates below the profit point closes his eyes to the lessons of reason and experience.

The Snub to Representative Harrison.

President Taft has given Representative Harrison of New York a needed lesson in the decencies of public life. On the floor of the House Mr. Harrison impugned the personal integrity of the President. The privilege of his office and the House afforded immunity for this attack on the honor of the Chief Magistrate, but it did not entitle him to be treated as a gentleman by President Taft. At the White House, whether he had gone to present a delegation of rabble, Mr. Harrison was told that the President declined to receive him. Nor was he left ignorant of the President's reason for declining further intercourse with him. Mr. Harrison was unable to bear his humiliation in silence, but gave his experience publicly in the hope of getting sympathy. He will receive little. He deserves none. He may have intended his slur on the President to be taken as a backhanded compliment, but he cannot complain because it has been taken otherwise. The insurgent press rolled the slur as a tender morsel under their tongues until the President's letter to the Nelson investigating committee showed it to be a foolish and malicious slander. The public generally will approve, with a sense of amusement, the discomfiture of Representative Harrison. The snub given him is likely to have a wholesome effect on other loose-tongued Congressmen with an inclination to gain cheap notoriety by reviling the President of the United States.

It has been stated several times in the press of late that the city tax rate would probably be raised. There is no warrant for such statements, and there is no occasion for the uneasiness they have excited. If the municipal tax is not lowered it will not be raised. That much can be stated positively. The rate will probably be lowered. By the practice of close economy the city government may manage to pare down the rate, which was reduced last year. There is a probability that there will be a reduction in the county rate. In any event it can be confidently stated the gross rate will be lower than it is at present. While the city has many unfinished improvement projects on hand, and the demands of the annexed district are large and urgent, both the Mayor and Council are striving to cut expenses to a point that will be less burdensome to the taxpayers.

The author of the silly falsehood that Governor Gillett's daughter had joined Nacelly's campaign touring party is the chap who started the yarn that Alden Anderson intended to withdraw as a gubernatorial candidate. The same motive prompted both fakes. No wonder the public credits the "political news" printed in a majority of the San Francisco papers.

"Big Jim" Gallagher has located himself in British Columbia, where he can look over the American line in safety from process servers on this side of the border. He can thus keep in touch with the "upholders" in San Francisco without being called to testify in court. He privately told a reporter that "they can get along without me." Very likely. But that does not explain why he slipped away from San Francisco immediately after the municipal election nor why Heney, Langdon and Burns failed to put him under subpoena. Heney, Langdon and Burns have likewise left the city in the belief, perhaps, that San Francisco can get along without them. Indeed the city can.

"Are you ready to have your measure taken?" is the question W. J. Bryan puts to Governor Hiram in the Commonsense. The query indicates that Bryan is not altogether pleased with Harmon's candidacy or is indicative of Bryan's desire to run again. If Harmon submits to be measured by Bryan's rule he may as well order his political coffin.

According to a recent bulletin issued by the department of agriculture, 33,196,000 acres are planned to cotton this year, an increase of 2.8 per cent over the acreage planted last year. If the yield is an average one the crop will aggregate about 13,000,000 bales. California figures in the tabulation for 18,000 acres. One of the surprising things about it is that Oklahoma has twice the cotton acreage of Louisiana and 700,000 more acres in cotton than North Carolina. South Carolina only exceeds Oklahoma's acreage by some 300,000 acres.

About People

Brantome's memoirs contribute a pleasing anecdote concerning kissing customs of the sixteenth century. The cardinal of Lorraine went to pay his respects to the Duchess of Savoy, and it is recorded as typical of her haughtiness that she held out her hand for him to kiss. The cardinal, furious at the affront, seized her by the head and administered two or three kisses, exclaiming: "I kiss the queen my mistress, who is the greatest queen in the world, and I am not to kiss you, who are only a dirty, little duchess (une petite duchesse crotte)!"

Mrs. Radcliffe confessed that some of the most thrilling incidents in the "Mysteries of Udolpho" were inspired by nightmare produced by sipping on pork chops. Tartin, the great violinist, after dining indiscreetly, dreamed that he had made a bargain with the devil for his soul. To prove his powers the evil one seized a violin and played a sonata of exquisite beauty. Tartin awoke with the ringing in his ears, committed the music to paper, and published it as "The Devil's Sonata."

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

De Forest, Wis.—

"After an operation four years ago I had pains downward in both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."

Mrs. AUGUSTE VESPERMANN, De Forest, Wiscon.

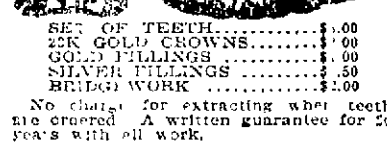

Another Operation Avoided.
New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first and was saved from an operation."

Mrs. J. M. PERRY, 1111 Kerlereck St., New Orleans, La.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

KETCHAM RESIGNS FROM GOULD LINE

Western Pacific Will Open for Passenger Traffic in August.

SAN FRANCISCO, June 10.—C. H. Ketcham, superintendent of the western division of the Western Pacific, has resigned to become assistant superintendent of the Southern Pacific.

Ketcham has been stationed at Sacramento with the Western Pacific ever since that road began operating last December. He will be assistant superintendent at Oakland under W. A. Whitney.

Ketcham came to the Western Pacific from the Lackawanna, of which he was superintendent of the New York division. During his railroad career he has been with the New York Central lines and with the Chicago and Northwestern.

No reason is given for the change, other than that the new position will be a better one as far as salary is concerned. It was at first rumored that Ketcham was to be division superintendent at Oakland and that Whitney was to go back to the Union Pacific, but this was denied by those in authority yesterday.

The appointment of H. M. Adams as general freight agent of the Western Pacific was confirmed at the local office of the Western Pacific yesterday. No further appointments were announced although it seems certain that J. M. Wadsworth, assistant general passenger and ticket agent of the Denver and Rio Grande, will secure the position. H. B. Boyd, assistant to the vice-president of the Gould line, whose office is at Chicago, will arrive in this city in about a week and it is probable that during his stay in this city the traffic department of the Western Pacific will be completely reorganized.

H. Schlacks, first vice-president, said yesterday that the road would be open for passenger business by August 15, and that all passenger traffic officials would be announced by that date. No successor to T. M. Schumacher has yet been named, and it seems more certain, because of the delay, that the position of third vice-president in charge of traffic is to be abolished.

Lewis Blames Roosevelt and Bryan for Disrupting Parties.

CHICAGO, June 10.—Editor Theodore Roosevelt and Editor William Jennings Bryan were criticized in a speech by former Congressman James Hamilton Lewis, before the Illinois Press Association yesterday, both being described as causes of a movement which he said is destined to a disruption of parties into bands fighting the issue of their own special privileges. He called upon the country editors to bring about cohesion and to counteract the influence of the movement he described.

Colonel Lewis was talking on legislation and in part said:

"By legislation we are being converted into a nation of legalized brigands. Legalized brigands. The policy now is to destroy any opponent by the aid of some privately directed act of the legislature or congress."

FLY PERSONAL FLAG.

"Unless this frenzied mania for legislation which forces under penalty obedience to that which justice and conscience are against shall subside into a citizenship regulated by the measure of individual welfare, the United States of America will break up into bands and clans under the flag of their own special legislative privilege, and will put themselves against the others as were the houses of Italian nobles, English lords and German barons, which destroyed all democracy of human nature in the end."

"If I am correct in my fear of the surrounding danger, I must charge much of its existence to Editor Bryan and Editor Roosevelt. During the last year, in his single desire to promote a reform in the justice of local institutions has inaugurated in his political following a greater danger in the spirit of legislation against a neighbor or opponent for retaliation or vengeance."

Save Lockjaw Victim With New Treatment

PHILADELPHIA, June 10.—Cured of lockjaw by a new treatment used for the first time in this city, 12-year-old John Smith of 473 North Belton street, yesterday was discharged from the West Philadelphia Hospital.

He was the healthiest, light worker, and when he first arrived in the hospital he could not move his jaw for a few hours. The treatment used in effecting the cure was first advocated by a German physician several months ago. It consists of injections of magnesium sulphate in conjunction with the antitoxin treatment.

These injections are made into the small column where the fluid reaches the nerve center, relieving the violent spasms which usually cause death. In the case of the Smith boy forty drops of magnesium sulphate were injected at a time.

Large Decrease in Breadstuff Exports

WASHINGTON, June 10.—There was a large decrease in the aggregate value of exports of breadstuffs, meat and dairy products food animals, cotton and minerals last month as compared with May, according to figures compiled by the Bureau of Statistics. Likewise there was a decrease of \$48,002,392 in the exports of these products during the eleven months ending May 31, of the current fiscal year, as compared with the corresponding period of last year.

The total exports of the articles mentioned during May, 1930, amounted to \$48,002,392, while the figures for the same month of the preceding year were \$95,919,419. During the first eleven months of the present fiscal year, the exports of these products equaled \$746,688,928 as against \$792,691,791 for a similar period last year.

Carroll Leads Garst By a Safe Majority

Standpatters Claim 7236 Votes Over Opponents; Smith Is Elected.

DES MOINES, June 10.—With a narrow county still to report, unofficial returns give Governor B. F. Carroll a lead over Warren Garst of 7236, as claimed by the "standpatter" headquarters and 3950 as claimed by the insurgents. The official figures probably will not be known for several days.

Governor Carroll today issued a formal statement claiming the nomination and pledging a vigorous campaign prior to the November election. Complete returns from the Ninth Iowa district also show Congressman Walter I. Smith 7782 and B. V. River 8118, a majority for Smith of 166.

PIERRE, S. D., June 10.—All factions today concede the nomination of C. E. Jones, progressive for Governor and Dickie and Martin for Congress. The official returns may be necessary to decide the nominations of others on the ticket.

FOOTPADS GET \$92. FRANKFORD, June 10.—A footman was held up and robbed by two men on Howard street, between Second and Fourth early this morning and of money and jewelry to the value of \$92. He lives at 230 Third street.

Jones Found Guilty Of Grave Offense

J. Jones was found guilty by a jury in Judge Brown's court last evening on a charge of felony. His victim, Minnie Winslow, an imbecile girl, was employed in his home during the confinement of his wife, when the offense was committed. A child was born to her about a month ago. The saddest feature of the case is that the convicted man has a family of four children, the youngest of which is less than a year old. His sentence is set for tomorrow.

Police Nip Alleged Burns in Bud

SAN FRANCISCO, June 10.—Detective Graham and McLaughlin saw a nicely dressed young man in company with John Long, a suspected bank robber, this morning, and on approaching them were told that they were en route to Lugsdale. On general principle the officers took Long into custody and took him for vagrancy.

RANKIN CASE GOES OVER.

SAN FRANCISCO, June 10.—The case of C. E. Rankin, accused of embezzling bonds of the Ocean Shore Railway, was continued by Judge Cabanis today until August 5, because of the absence of Judge Carroll Cook, who has gone on a two months' trip to Washington, D. C.

Dainty, Fascinating Marie Doro Declares She Is Stage Failure

FASCINATING MARIE DORO.

NEW YORK, June 10.—Dainty, diminutive and fascinating Marie Doro, of those wondrous eyes, whose recent engagement in "The Morals of Marcus" at the Macdonough theater in this city as one of Frohman's stellar attractions served to fill the popular little playhouse to the last row in the gallery during her short stay, is going to leave the stage.

In her announcement that she is taking the step she declares it is because she believes herself to be a complete failure. The actress, who has been heralded as one of the most promising stars of the last few years' crop of luminaries, has outdone a theatrical world, which profited much for the original little lady.

"I have been tried and found wanting," declares Miss Doro, who the foremost critics of America united in declaring an unequalled success in the character of the raven-haired heroine of the Turkish Bazaar who "creeps insidiously into the heart of Sir Marcus Ordwayne, and adds in the quivering little voice which while it promised little in the way of histrionic achievement during her brief career, was nevertheless one of her distinctive charms.

"I have none of the essential of an actress and I am not fitted for the work, therefore I am going to get out of it." Miss Doro is just recovering from the distinct failure of "The Climax," in which she was to have starred this year. The feminine role in the new vehicle was too heavy for the spirituelle actress, however, say those who saw her during the first performances and the crash followed.

Just what Miss Doro intends to do now she does not say. Possessed of a comfortable fortune, largely acquired in pursuance of the profession for which she declares herself unfitted, it is possible that she will make no further attempt to carve out a career, and the "home," that potent realm which lured Margaret Kilgallen from the public, may claim her for its own.

Commerce is a member of the State Agricultural Society, and also a member of the executive committee of that organization, and will work to secure the consent of the state society for the carrying out of the project.

Terra Cotta Drain Pipes Objectionable

BERKELEY, June 11.—In view of the numerous complaints made by the plumbers and builders of the new plumbing ordinance which went into effect June 2, the city council has set Monday at 4 o'clock as the time when complaints will be heard, and if suitable, the ordinance will be amended.

Since the final passage of the law complaints have been made regarding the substitution of terra cotta drain pipes and sewer connections instead of cast iron, and at the meeting of the complaints the board will endeavor to learn the nature of the objections.

DE LARA BRANDS DIAZ AS DESPOT

Political Refugee Declares the President Has Destroyed Free Speech.

WASHINGTON, June 10.—A tale of forced flight from Mexico and of alleged persecution by American and Mexican officers in this country was related to the rules committee of the House today by L. De Lara, a political refugee.

After recounting his experiences in Los Angeles, Cal., where, he said, he was arrested five times on "trumped-up" charges, at the instance of the Mexican government, and served more than 100 days in jail, De Lara exclaimed:

"I have been in jail five times since I came to the United States, and have been subjected to 'third degree' at the hands of officers. I have been thrown into a dungeon and kept for days with nothing to eat but a rotten potato, and neither my attorneys nor friends allowed to see me. I am liable to be arrested again any time, and, unless you gentlemen help me, I may get me and hang me."

De Lara denounced President Diaz as a "dirty despot," who had destroyed free speech, free press and the right of ballot in that country.

More than 40,000 people have met violent death for political reasons since Diaz

Police Search for Missing Minister

Rev. Emmet McBride, pastor of the United Presbyterian Church at Morgan Hill, Santa Clara county, is missing, according to a communication received by Superintendent of Police Wilson today from Arthur E. Langford, sheriff of Santa Clara county.

In the communication received by the head of the local police department it is stated that McBride probably wandered away from San Jose where he had been visiting, while temporarily detained.

He is described as being 35 years old, weighs 150 pounds, is 5 feet 8 inches in height and has heavy black hair, student cut. When he was last seen in San Jose he wore a black suit and a dark hat and carried a suitcase.

USE PHONE IN ROBBERY. SAN FRANCISCO, June 10.—Two sneaky thieves operating with a telephone, robbed the grocery store of Henry Schmidt, Fulton and Webster streets, of \$20, yesterday. One called the grocer to the telephone booth with a fake order, while the other entered and took the money from behind the counter.

Council Votes Funds For Mayor's Journey

BERKELEY, June 11.—The city council allowed Mayor Hedges \$250 as his share in the cost of the trip East that the city executive made in the interests of the Hedges Hetchy project.

Alameda will vote a similar amount to cover its share of the expense of sending Hedges East to attend the hearing in regard to the Sierra water supply before Secretary Richard Ballinger of the Interior Department.

The council voted to reimburse for new bills for the purchase of an automobile for the engine and truck, as bids for the machine were rejected at the last meeting, Tuesday.

Accused Pickpocket Is Held to Answer

Louis Schroeder, who figured in an exciting chase on Decorative Day, when he attempted to escape capture at the hands of a man whom it is charged he victimized, was this morning held to answer to the Superior Court by Judge Samuels on a charge of grand larceny. His bonds were fixed at \$500.

Schroeder is charged by D. A. Hagens of San Francisco with having taken a silver purse from his pocket while the latter was waiting a Key Route train at Fifty-fifth and Telegraph avenues.

YOUTH SEES PROBATION. BERKELEY, June 10.—Confessing to the theft of two revolvers, valued at \$10, from the home of Nene Canales, 228 Eighth street, James Prevost, a resident of Oakland, aged 20 years, will endeavor to secure his freedom on probation.

THUMB PRINTS AS INDIANS' MARKS

Used on Deeds Filed for Heirs of Peter the Great, Pottawattamie Chief

KANSAS CITY, June 10.—In settling the estate of Peter the Great, a Pottawattamie Indian chief who died several years ago, his heirs, who cannot write, are making thumb marks on a deed of sale for the property instead of the usual "X" mark.

The deed was filed yesterday in Kansas City, Kan. About a dozen heirs cannot write, so they have signed the document with their ink thumbs. But they regard this as the safest way, insisting it will be impossible for any of the heirs who sign the deed in this manner to ever deny their signatures.

The estate of the chief consists of 120 acres of land near Mayetta, Kansas. It is valued at \$1000. Eighty-four heirs, residing in Missouri, Kansas, Texas, Oklahoma and Indiana must sign the deed before the sale can be closed. All but four have signed it.

TROUBLE PURSUES DENVER FINANCIER

Banker Clinton O. Heath Again Charged With Crime of Embezzlement.

DENVER, Colo., June 10.—Information charging him with having appropriated to his own use \$2750 entrusted to him for investment, were filed in the District Court here yesterday against Clinton O. Heath, banker and financier.

Heath attained notoriety two years ago when he was found guilty in the District Court here of having embezzled \$20,000 entrusted to him for investment by Mrs. Mary H. Hunt of New York. Heath fled from Denver but was arrested at Los Angeles three months later.

Following his conviction, friends came to his rescue, and the matter was patched up by the payment of \$20,000 to Mrs. Hunt. Heath re-entered business here and to some extent regained his former business standing.

His charges brought against him yesterday are on the complaint of Joshua McNeil, a wealthy retired cattleman, who is one of those who stood by Heath on the occasion of his former troubles.

17-Year-Old Boy Suicides For Love

AMSTERDAM, N. Y., June 10.—Edward P. Smith, a 17-year-old farmer boy, who had been on a farm six miles from this city, hanged himself with a strap from a tree last night. He was despondent over a love affair.

PENTECOST FEAST IN HEBREW FAITH

Rite of Confirmation Is to Be Administered in the First Temple.

Next Monday will be the feast of Pentecost and there will be a solemn observance of the same by the several Hebrew congregations of this city. This will be especially the case in the temple of the First Hebrew Congregation, where there will be an administration of the solemn rite of confirmation by Rabbi Friedlander. There will be ten postulants, five of whom will be boys, the other five girls, and all of them are members of the families among the Hebrew people of this section.

In addition to the solemnization of this act there will be other impressive ceremonies, peculiarly appropriate to the feast in question, and in addition to these will be an eloquent discourse by Rabbi Friedlander. There is going to be a large attendance for the reason that the greatest interest is being taken in the event, not alone by residents of this city, but also by members of the Judean belt on the other side of the bay.

PROBATION SAVES

Officer Christopher Russ Files Report of Work During Eighteen Months.

SMALL PER CENT FALL AGAIN FROM GRACE

Success of System Shown in Statement to Judge Brown.

Probation Officer Christopher Russ today submitted to Judge Everett J. Brown of the criminal department of the Superior Court a very interesting and instructive report of the operations of his office since January 1, 1909, when Judge Brown took hold of the department, up to the present time. One of the most important features of the report was the percentage concern only the probation cases that have been passed upon by Judge Brown, yet from then are drawn positive conclusions to the effect that the probation law is a pronounced success in its broad sense.

During the period covered by the report Judge Brown has referred to the probation officer for investigation sixty-three cases, in all but one of which they had been entered a plea of guilty. This caused a saving to the county in trial expenses at the low estimate of \$250 per trial, if only half of the cases had gone to trial of \$7650. Probation was denied to twenty-one of the applicants or 33 per cent, and granted in forty-two cases or 66 per cent.

ONE FUGITIVE.

Of the forty-two persons placed on probation one only has disappeared, and one only has been sent to prison for committing further crime. One was sent to prison for breaking a promise to the court, although committing no crime; one was sent to the Presto School of Industry for having deceived the court when asking for probation; one was found to have deceived the court and was turned over to the officers of the Minnesota reformatory, from which he was sent on parole. Thus of forty-two criminals placed on probation, only one or 2 per cent has committed further crime, and only five or 11 per cent have in any way failed. Three were brought back violating probation, were continued on probation. This makes 16 in all or 16 per cent who have required attention from the court.

PAYS ITS WAY.

An average of two persons have been placed on probation since January 1, 1909, by Judge Brown—one every day, the highest number in a single month being nine in March, 1910, there having been only six in March, 1909, five in November of that year, and four in April, 1910. In August and December, 1909, in May and June (to date), 1910, no one was placed on probation.

Had the thirty-seven successful probationers each been sentenced to an average of two years in San Quentin, the expense would have been about \$4720, which, added to the amount saved on trials—\$7750—makes a total of \$11,470. As the total cost of the probation office is less than \$10,000 a year, it is evident to Probation Officer Russ that on adult probation alone more than enough is saved to pay the cost of all probation work in Alameda county, including the entire juvenile court probation system. Moreover, the probationer cares for his own family while the man in prison is not to leave his family to public or private charity.

SAVES SELF RESPECT.

"The saving in many self-respect," says Probation Officer Russ, "is the greatest, and in character, as well as the increase of friends of society instead of enemies of the social order, made such by prison life, can not be calculated in dollars and cents."

Men were placed on probation for crimes as follows: Burglary 13, grand larceny, 9; forgery, etc., 8; embezzlement, 3; failure to provide for child, 2; receiving stolen property, 2; assault with a deadly weapon, 1; arson, 1; forging a railroad pass, 1. Of these, the following were the crimes of probationers under 21 years of age: Burglary 8, grand larceny, 5; embezzlement, 1; total 15. Of the forty-two criminals, thirty-eight, or over 90 per cent, were crimes against property.

CAUSES OF CRIME.

The report gives the causes of the crimes of the probationers as follows: Drunkenness, 8; need, 8; mental associates, 5; love affairs, 3; greed, 4; boxes of goods, 2; vanity, 2; laziness, 1; bad habits, 1; motorcycle crash, 1; gambling, 1; drug habit, 1; tened beyond endurance, 1; adventurousness, 1; reckless spirit ("don't care"), 1.

AVERAGE AGES.

The average age of the persons placed on probation (thirty-eight men and four women) was 25 years. The average age of those under 20 was 21 years, of those over 20, 27 years. Fifteen probationers were under 21 years of age; fourteen over 20 and under 30; nine between 30 and 40; three between 40 and 50 and one between 50 and 60 years. The youngest probationer was 17 years of age, his case was passed upon, six others were 18 and six 19. The oldest was 64 years of age. The number covered by the report. With reference to the married condition of probationers, the following is true: Under 21 years of age—single, 14; separated, 1; over 21—single, 9; married, 17; divorced, 1.

RELIGIOUS CREEI.

Twenty-five probationers were of Protestant connection, fifteen Roman Catholic, one Jew, and one Greek.

That the idea that foreign immigration is responsible for the amount of crime in the United States is a pleasing delusion, says the probation officer, usually found to be a false and never sustained are compiled and scattered among these probationers, as the following figures will show: Born in California 13, born elsewhere in the United States, 21, total 34. Born in Canada and other countries, 42.

Of the twenty-one denials of probation six offenders were sent to the Preston school, twelve to San Quentin and three to Folsom. The sentences to the latter three ranged from one to seven years, averaging three and a half years. To Folsom, from one to two years, averaging 1.33 years, and to both prisons, 20 years to seven years, averaging three and one-fifth years. The usual period is about five years, but the probation officer thinks it would be better if the period was always the maximum, the court thus ending probation when the task of reformation is accomplished at the end of three, five or any number of years in any given case.

Dickinson's Death Due to Heart Disease

NEW YORK, June 10.—Charles Dickinson, former president of the Carnegie Trust company, who died after a trip to a chemical laboratory at Savannah, Ga., last month did not come to his end by accident, according to a statement issued by E. W. de Leon, president of the Casualty company of America. This company held \$7,000 of accident insurance on the life of Mr. Dickinson.

Stanley C. Dickinson, a lawyer, said at the time of death, May 24, that Dickinson accidentally inhaled a poison gas while watching a laboratory experiment.

Dickinson's Death Due to Heart Disease

NEW YORK, June 10.—Charles Dickinson, former president of the Carnegie Trust company, who died after a trip to a chemical laboratory at Savannah, Ga., last month did not come to his end by accident, according to a statement issued by E. W. de Leon, president of the Casualty company of America. This company held \$7,000 of accident insurance on the life of Mr. Dickinson.

Stanley C. Dickinson, a lawyer, said at the time of death, May 24, that Dickinson accidentally inhaled a poison gas while watching a laboratory experiment.

Pretty Pianiste Charms Audience of Music Lovers

MISS LORRAINE EWING, whose piano recital delighted music lovers.

Hugo Mansfeldt presented one of his pupils in a piano recital Wednesday evening in the parson of Miss Lorraine Ewing. A large audience of music lovers crowded the Mansfeldt parlors at 235 Jole street for the occasion. Although still in her early teens, Miss Ewing's rendition of a brilliant and difficult program was such as to win her praise as an artist of the piano and reflect credit upon her teacher and his method. A perfect technique, united with a temperamental depth of feeling, enabled the young pianiste to intelligently interpret all the intricate and delicate shades of harmony of the compositions of such composers as Schumann, Chopin, Liszt, Debussy, and others. The program provided plenty of latitude for versatility of touch and expression, and the opportunity was not lost. The success of Miss Ewing, like that of other girls in the bay cities, shows it is not necessary to go to Europe to get a complete and finished education in technique, taste and expression is a pianiste.

The program was as follows:

Dans le Bois Fauré
Melody Paderewski
Minuet Chopin

Träumerei Schumann
Witches' Dance MacDowell
Nocturne, op. 9, No. 1 Chopin
Valse, op. 64, No. 2 Chopin

Kamennol Ostrow Rubinstein
Mazurka, op. 24, No. 1 Liszt
Moment Musical Schubert
Das Marienleben Paderewski
Two Little Pieces Debussy
Tobacco, op. 9, No. 1 Debussy
Tritania Liszt
The young women of the Mansfeldt Club who assisted in receiving the guests consisted of: Miss Frances Buckland, president, Miss Thelma Cusker, Miss Josephine Coonan, Miss Laura Ferguson, Miss Hazel Hess, Miss Esther Heller, Miss Edith Sellers, Miss Grace St. John, Miss Gertrude St. John, Miss Edna Womer, Miss Edna Willis, Miss Frances Wilson, Miss Bernice Levy and Miss Grace Sullivan.

ELKS TO OBSERVE NATION'S FLAG DAY

Special Exercises and General Celebration Arranged for Next Week.

Next Tuesday, June 14, will be Flag Day and there will be a general observance of the occasion in patriotic organizations in various parts of the city. Among these celebrations will be a special one which is now being prepared by Oakland Lodge of Elks, which has patriotism as one of its cardinal principles.

There are special exercises prescribed by the order for the celebration of the anniversary of the founding of the flag and these will be carried out on the evening of the occasion in Piedmont Park. In addition to these exercises, there will be an entertainment of a very interesting character in which well known talent will take part.

There will also be an oration by Judge Mirasky of San Francisco, who is one of the best known members of the order. It is not improbable that Justice H. A. Melvin of this city may also be heard from on the occasion. The arrangements for the occasion are in the hands of a committee, the chairman of which is Harry Anderson, and there is no doubt, as a consequence, that every detail will be looked after in a most capable manner.

Porterville Section Swept by Flames

PORTERVILLE, June 10.—Fire, which was started in the Poplar section by the careless dropping of a match, burned over eight square miles of alfalfa, grain and pasture lands Tuesday, causing the loss of thousands of tons of feed.

Efforts of 200 ranchers of the Poplar country were finally successful, and the blaze was extinguished nearly four miles south of its starting point, and after it had burned a strip nearly two miles wide. Many ranch houses and barns were saved.

Fifteen minutes before the fire was reported at the north border of the McKelvey ranch a stranger, smoking, drove through the McKelvey place, and it is supposed he started the fire. J. A. McKelvey and A. A. Ridgway were overcome with the heat while fighting the flames and were carried home exhausted.

Death Beats Sheriff In Claim on Man

CANTON, N. Y., June 10.—Death won in a race with a deputy sheriff of this city to serve a summons on Charles Claffey of Norwood last night. Claffey failed to appear before the grand jury against the Young, a Buffalo pugilist, and the deputy was sent with a bench warrant to arrest him. On reaching Claffey's home the deputy found him lying dead on the floor.

Death had apparently resulted from natural causes.

To Investigate Lair Of Material Trust

DENVER, June 10.—Several months' investigation of the high cost of building has led Labor Commissioner John V. Drake to the conclusion that a building material trust is exacting exorbitant prices, and he will so report to Governor Shafter, according to an announcement made by him last night. Commissioner Drake, in defense of labor, began an investigation of the charge wages have increased in price of building material, and that these wages were demanded by the high cost of living. The latter is true, the commissioner says, only insofar as the high cost of living requires better wages, but the real reason for high prices of lumber, cement, brick, etc., is a combination of manufacturers, made for the purpose of keeping up prices.

ORLOFF CASE CONTINUED.
SAN FRANCISCO, June 10.—John Orloff, wife, Mary Orloff, and E. C. Mills, attorneys, accused of having murdered Miss Frances Shaw of Oakland out of \$150, appeared in Judge Dunne's court today. On motion of their counsel, Attorney William Hoff Cook, the case was continued for arraignment until June 16.

CITY TO GRAB 200 ACRES IF PLANS ARE CARRIED

Amendment to the Key Route
Franchise Is Proposed at
Meeting.

LINE OF BULKHEAD
TO MOVE 2000 FEET

Mayor Mott Approves; Permis-
sion Must First Be
Obtained.

The acquisition by the city of over two hundred acres of land available for long and rental to manufacturing concerns is contemplated by the moving of the bulkhead line lying between the Southern Pacific and Key Route piers to a point two thousand feet westerly from the agreed low tide line.

This proposition comes as counter to the plans submitted by City Engineer Turner, who provided for a row of ten-foot piers in the moving of a quay wall for the development of the western water front basin.

The newer plan has the endorsement and approval of Mayor Mott and City Attorney J. W. Gibson, as is evidenced in their suggestion for amending section 2 of the wharfing out franchise applied for by the Key Route, which came up for consideration before the wharves and water front committee of the city council last night.

GAIN OF AREA.

In submitting the amendment as recommended by the mayor and city attorney as the majority action of the board of public works, Councilman Pendleton said: "This great area of over two hundred acres in extent will eventually become the most valuable in the city. It is located in the proximity to all the railroad systems and is at the very center of where our future shipping interests will be concentrated. In San Francisco the similar lands are valued at a valuation of \$25,000 an acre and surely these reclaimed lands included within the area named will for manufacturing purposes have a value of at least the least one-half of that they are valued in San Francisco. That would be \$12,500 an acre. In view of this fact and the additional one that it will greatly benefit the basin to be formed, in bringing the quay wall to deeper water and require less expense for dredging as would be the case if it were carried in further seaward, I cannot see how it is possible for us to do other than to incorporate this amendment in the application for the Key Route franchise. The reason why we have to have this amendment in the franchise is that it will be necessary to begin the wharfing out at the bulkhead line as desired to be established."

Attorney J. W. Engs, representing the Key Route Company, declined to accede to the change of conditions until he consulted with the officers and directors of the company.

FURTHER INLAND.

He said that the change would undoubtedly tend to lessen the value of the corporation's lands which fronted upon the present low tide line and would place a bulkhead line a mile farther from the present advantageous position near the proposed wharves as designed by Engineer Turner. He said, however, that he was unauthorized to state what action the company would take in the matter.

The committee, however, decided that the amendment to section 2 of the franchise application should be recommended to the favorable action of the council.

THE AMENDMENT.

The amendment reads as follows: Section 2 of ordinance granting franchise to San Francisco, Oakland & Southern Pacific Company, which reads: "The aforesaid eastern boundary line of said low tide line is so fixed with the understanding that the United States bulkhead line now established is located approximately 600 feet northwesterly of said line of ordinary low tide as hereinafter in section 3 of this ordinance determined, fixed and established, and that the bulkhead line shall at any time within five years from the final passage of this ordinance be moved westward from its present understood location, then but not otherwise said eastern boundary line of said low tide hereby granted shall be moved westward a like distance from its location as hereinafter described within the limit hereinafter referred to, provided, however, that said eastern boundary line of said low tide shall not in any event be moved westward beyond the line drawn parallel to and distant at right angles 2000 feet northwesterly from said line of ordinary low tide as hereinafter in section 3 of this ordinance determined, fixed and established."

The amendment as above set forth bore the endorsement:

"We suggest the foregoing amendment be inserted as noted above."
FRANK E. FLETCHER
JOHN W. STETSON

TWO YEARS' TIME.

In the event that the Key Route corporation accepts the amendment to the franchise the Secretary of War will be required to grant permission to the city to move the bulkhead line out to the point desired, and the city is given two years' time under the amendment to obtain such permission.

In the event that at the end of the time it is refused, then the present established line will stand and a fairway granted under the franchise to the Key Route Company will begin at the bulkhead line as now fixed.

Secretary W. T. Gibson of the California Rivers and Harbor League, appeared before the committee and asked that a representation from his organization be permitted to appear before the council and be heard in the matter of the development of the western water front. He said: "I think the proposition is one of the greatest importance in the city of Oakland and ask that a representative from the organization be given a hearing on the proposition before final action is taken. I believe the plans as suggested by the city engineer are adopted an irreparable injury will be done the city."

TURNER PLANS.

"I consider that the acceptance of the plans would be a grave mistake. We are not unfavorable to corporations. We like the Southern Pacific and the Key Route, but we like the city a little better. If we make a mistake now it will be almost impossible to correct it later. Oakland's greatest asset is its water front and its best use should be studied. If you will remember on the estuary how the plans were changed by the board of engineers and from a wharfage that was only fit to accommo-

CATCH THE SLIPPER

Balloon Girl at Bell Theater
Offers Prize to Man Who
Secures Her Slipper.

The dainty aeronaut and her
balloon as she is seen at the
Bell Theater this week.

Never an act like the headline attraction at the Bell Theater this week has graced any vaudeville house on this side of the bay before. Thousands of people, attracted by the biggest novelty of the season, "The Balloon Girl," have been unable to secure seats during her engagement. Out from the stage and soaring over the heads of the audience, occasionally giving a light to or someone heard with the toe of her dainty slipper, she is "The Balloon Girl." It is the greatest novelty seen in months or it has the stamp of a newness. It is decidedly original. The house is jammed in darkness when out sails the rose-tinted balloon, with a very pretty girl sitting and slipping in the basket.

REACHING FOR SLIPPER.

She floats gracefully over a wide area, a pretty sight to behold, and the fun starts when some adventurous youth attempts to pull off her dainty satin slippers as she passes. A prize is offered for the lucky man who succeeds in capturing it and many are the attempts to forestall this disappointment and secure the coveted slipper before she makes up her mind to release it. The apparatus of the airship is worked from the stage, but the method is concealed. But for the big novelty "The Balloon Girl" is one of the big attractions of the week.

The smaller class of craft it has been adjusted to meet the requirements of the largest sailing vessels. I believe the people of Oakland are pleased with the results attained in that direction."

Stetson asked: "You will admit, Mr. Gibson, that the city council has been pouring over this matter for months and long before the bond election."

"We are not considering plans for the water front, but the Key Route franchise," said Mott regrettably.

FRANCHISE AND FRONT.

"That is just it," said Gibson. "I do not know how far the franchise affects the plans for water front development."

It was agreed that a delegation from the California Rivers and Harbor League was to be given a hearing next Monday night in the western water front question at the opening of the council meeting.

Stetson made a objection to the Key Route Company retaining the right to lay railroads and wharves at the western ends of Fourth, Twenty-second and Thirty-fourth streets.

Mr. Engs argued that the company was giving the right of way for the laying of these streets over its own land and therefore he thought it was true that it should be given the privilege set forth in section 4 of the application.

Section 3 of the application was amended to make the amount of the first year's rental due upon the passage and approval of the franchise ordinance, and that the yearly rental of \$1000 for the first twenty-five years and \$2000 for the second, should become payable on the second day of July of each year. The change was made at the suggestion of Pendleton, who declared that it "was the time of the year when the city stood most in need of funds."

ACCEPTANCE TIME.

The clause giving the applicant company ninety days' time in which to file with the city clerk its acceptance of the franchise was denominated by Pendleton to be a "most extraordinary provision."

Attorney Engs explained that in view of the absence of the city of P. M. Smith and others of the directors, it was inserted in order to give them opportunity to meet and formally accept the franchise. His explanation was satisfactory to the committee.

Stetson objected to the provisions of section 3 in which it was agreed that the city "could quitclaim to the company all its claims to wharfing out rights shoreward from low tide line as established."

A statement by the city clerk in explanation of the city had no claim or title to the lands in question and would not gain or lose in making such a quitclaim.

Pendleton also stated that he had read a decision by late City Attorney McElroy, on file in the board of public works, in which he gave the view was upheld and he thought was confirmed as to the question of ownership in time for Monday's meeting of the council.

Only Chairman Sief after and Councilman Vose of the various committees were at the meeting, and the minority report was favorable to the passage of the application in its amended form. The others not of the committee parties were: the applicant, were Pendleton, Stachler and MacGregor.

On the suggestion of Pendleton an additional ordinance was introduced in the franchise ordinance by which the applicant company granted an easement over its right of way for the outlets of the Twenty-second and Thirty-fourth street sewers, continuing for a thousand feet in a westerly direction.

Crushed by Elevator, Man Is Near Death

SAN FRANCISCO, June 10.—His body crushed and mangled in a sidewalk elevator at Kearny and Market streets at 3 o'clock this morning, William Whitaker, 40 years old, an employee of the Chronicle, lies at the Harbor Hospital.

Whitaker, who lives at 156 Thrift street, had taken several loads of paper to the sidewalk and was going up again when in some manner he slipped and fell, his body bulge crushed between the car and the iron supports. His right leg was broken and his entire body bruised and lacerated. He also suffered internal injuries. His condition is critical.

BRONSON PASSES HIS OPINION ON MANAGERS
Clever Lightweight Says That They Are of Little Use to Boxers.

By Edidie Smith
The opinion of a clever lightweight boxer on the value of managers is of interest to many. He says that they are of little use to boxers, and that the only way to win is by using one's own brains and brawn.

ILL LUCK PURSUES DILLON'S NEW PITCHER
Eddie Kline Twirls Good Ball, But Loses Close Game to Beavers.

By Edidie Smith
The Beavers' victory over the Athletics was a close one. Eddie Kline pitched well, but ill luck pursued the Athletics' new pitcher, Dillon, who was unable to get the job done.

CURES S.S.S. RHEUMATISM

The cause of Rheumatism is an excess of uric acid in the blood. The ratio impurity gets into the circulation by absorption usually because of constipation, weak kidneys and other systemic irregularities. Then the blood becomes weak and sour and irritating uric acid particles are formed in this vital fluid. When in this impure condition the blood can not furnish the necessary amount of nourishment to the different muscles, tendons, nerves and ligaments of the body. Instead it constantly stings them, the only remedy is to purify the blood. Articles collect in the joints, which cause the pains, aches and soreness of Rheumatism. Treatments, plasters etc. may relieve the acute pain of an attack of Rheumatism, but such treatment does not reach the blood and therefore can have no permanent good effect. There is but one way to cure Rheumatism and that is to purify the blood of the acid poison. S.S.S. goes into the circulation and attacks the disease at its head. It removes the cause for the reason that it is the greatest of all blood purifiers. It filters out every trace of the sour inflammatory matter, cools the acid, cleans the circulation, adds richness and nourishment to the blood and permanent cures Rheumatism. S.S.S. does not patch up, it cures permanently. S.S.S. is especially valuable as a remedy for Rheumatism, because it does not contain a particle of harmful mineral in any form. It is a purely vegetable, a fine tonic as well as a blood purifier. Book on Rheumatism sent free to all who write THE SWIFT SPECIFIC CO., ATLANTA, GA.

Originality! IMPERIALES CIGARETTES

define it. There is no bend of tobacco so imperial in quality, so distinguished from all others. It challenges imitation.
